

Selected works

Projects we're proud of.

A small selection of recent work. Each project reflects our approach: clear thinking, careful craft, and lasting partnerships.

End-to-end

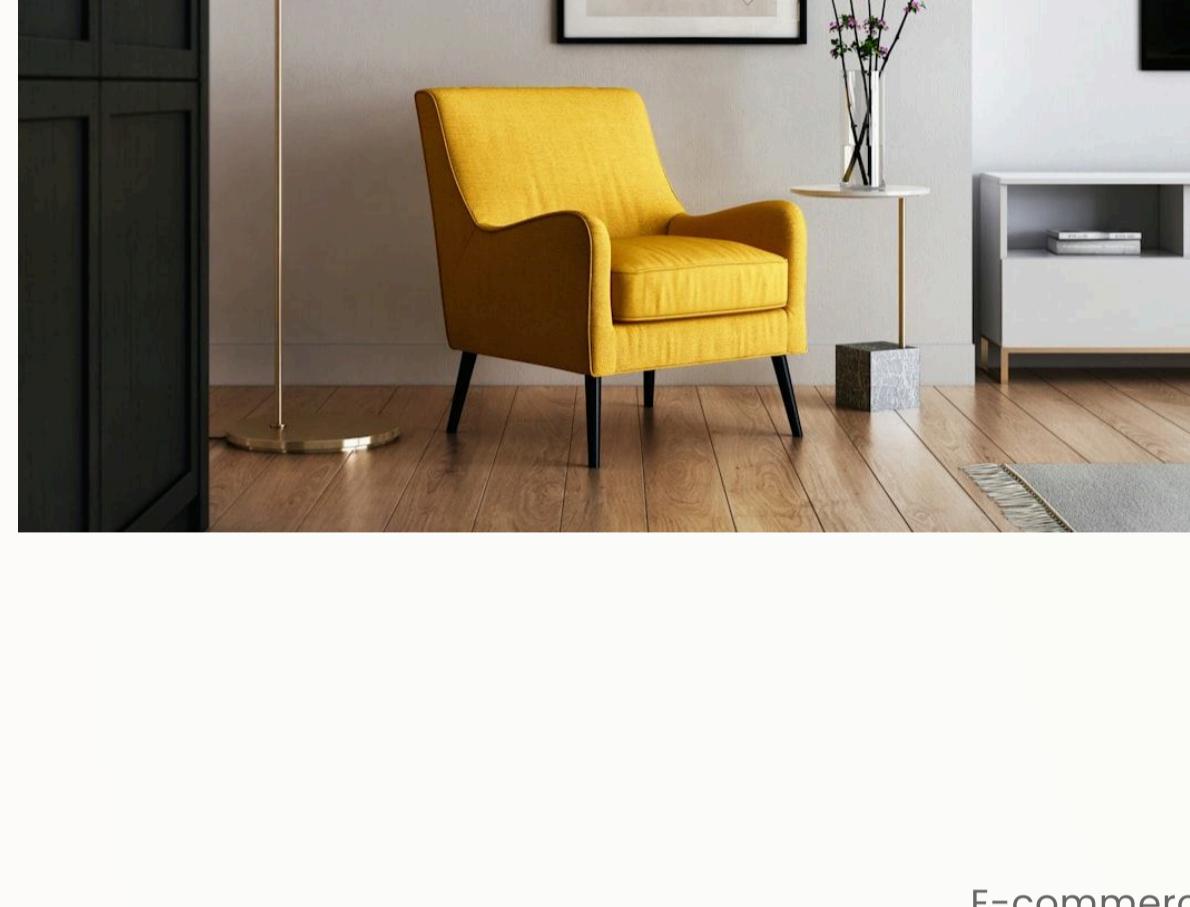

Strategy to code. We handle every layer so nothing gets lost in translation.

Small team, full focus

We take on 2-3 projects at a time. Each one gets our undivided attention.

Long-term partners

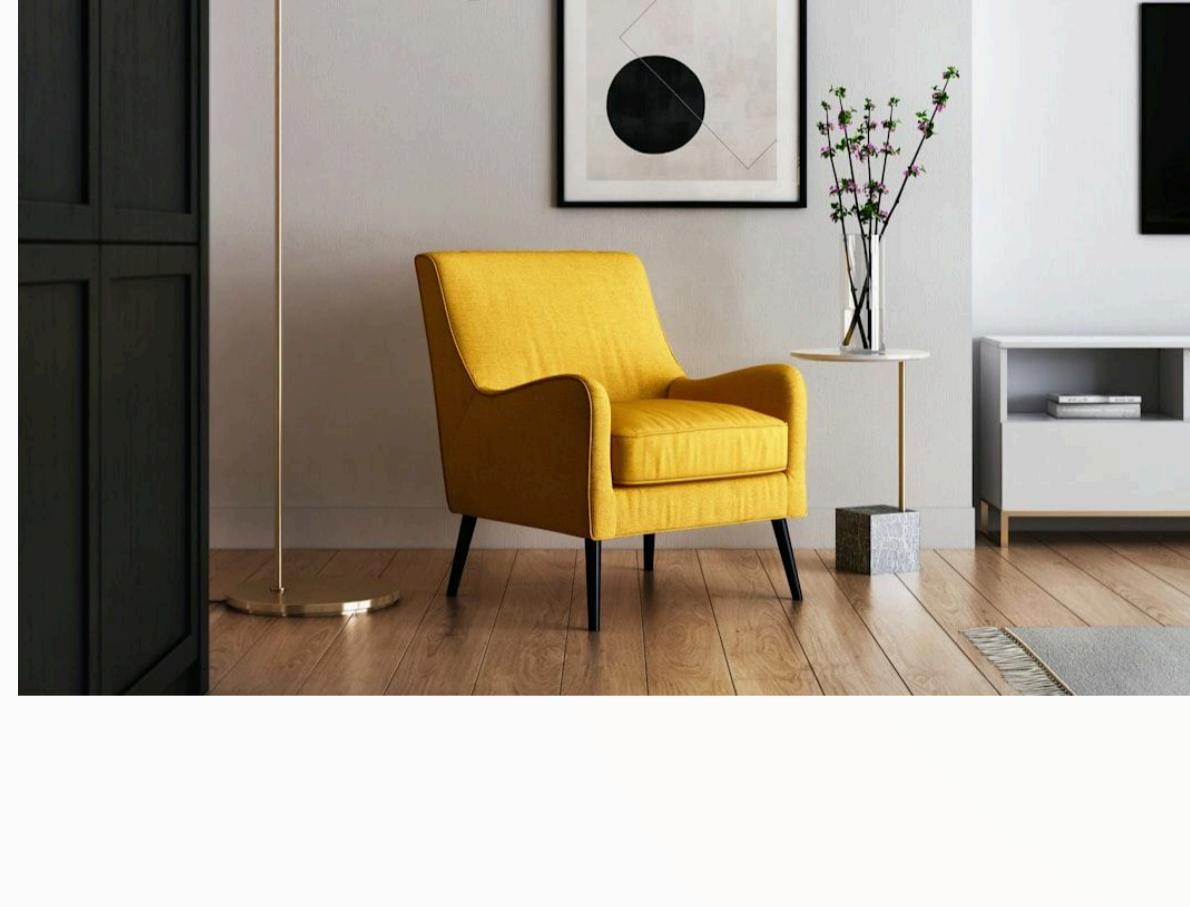

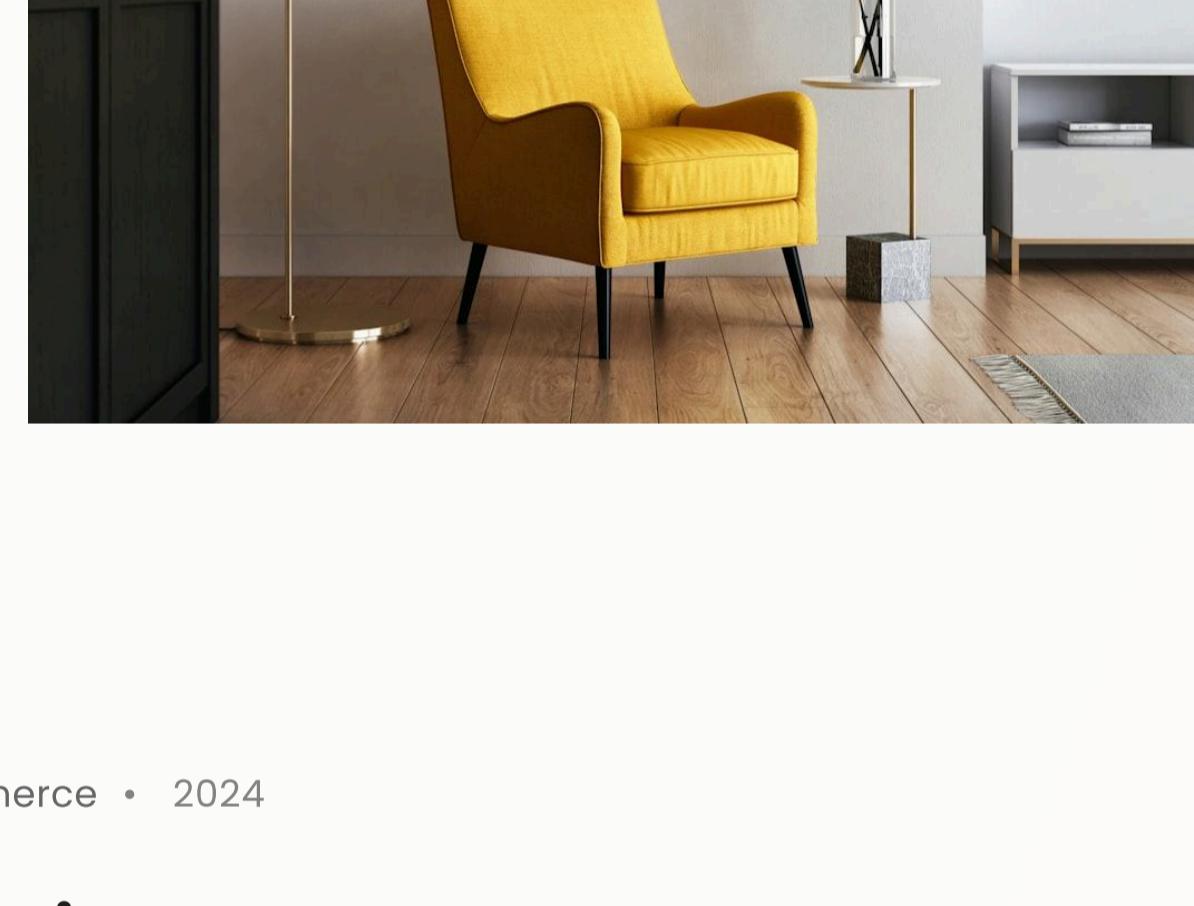

Most clients come back. We design for growth, not just launch day.
